

4 Garbage Collection

There are special rules about how to throw away your garbage. Please read and follow the special rules carefully. The rules say when (day of the week and time) to throw away your garbage. You also need to sort your garbage before you throw it away. If you do not sort your garbage or if you do not throw it away on the correct day and time, your garbage will **NOT** be taken away. This is bad for the apartment building, so please throw away your garbage carefully.

If you have just moved here from somewhere else in Japan, the rules for garbage may be different. Ask someone at your local city, town, or ward office, or neighborhood association about how to sort your garbage and when to throw it away.
